Essay Questions

Please answer any 2 of the 3 following essay questions. Each response should be typed and 500 words or less.

1) If you could choose a single health problem that you would like to address in Haiti, what would it be? Describe the actions you would take to try to help solve this problem.

2) Is there anything you have done in the past to help promote the improvement of health for the people of Haiti or any other underserved communities? How would you apply the lessons you have learned through that experience to help CHAI accomplish their mission?

3) What skills/attributes make you uniquely qualified and capable to lead the next generation of medical professionals of Haitian descent?
